

Clinical care home support team

Listening and responding to care homes

Cornwall and the Isles of Scilly
Health and Care Partnership

What we can do

- Education and personalised support in enhancing the health of your residents.
- Supporting transitions of care out of hospital to care home 7 days a week
- Clinical and pastoral advice and guidance.
- Shared clinical decision making, risk management and shared clinical accountability.
- Support with monitoring of clinical condition.
- Professional development of staff .
- Escalate unsafe staffing issues.
- On-site clinical support if appropriate.
- Ongoing support for COVID-19.
- Navigating to other teams and clinical professionals.

24/7 care home professionals line

The care home clinical assessment and support line is supported by Cornwall NHS 111 (out of hours) and the care home support team (in hours). This should not replace your normal route for first line clinical support via your GP).

Call 01872 303770
